Sweat drenched skin covered in white lace
Devilish accomplice in lingerie
Tonight, tonight revenge has a face
And she's gonna have her way
Open windows, unlocked doors
Secrets left on bedroom floors
We'll stay in here under these sheets
Playing this game of twisted hide and seek
Don't try to run she'll find you
Don't make this hurt more than it has to
Just a kiss her taste could cure me
I need a fix for my sweet tooth craving
I'm doing this purely for revenge
Loathe every moan and creak in the bed
I've gotta say I'm quite impressed
How fast she fell out of that dress
Every dirty word she whispered
And every sick thing she screamed
I hope they echo off your walls
I hope they haunt your every dream
Deep breaths with the cruelest intentions
A motive we're not gonna mention
Revenge, revenge is a girl I know and she can't let this
go
Through the keyholes off the walls
Echoes chasing down the halls
Evidence spread all around
Patiently waiting, waiting to be found
I wont just stab your back
I've got blueprints for attack
And it won't be quick, i'll tell you this
I think you know me better than that
With surgical precision
I'll make a small incision
Directly to the side of your spine
I'm taking back what's mine
