I'm through that pity party stage  
The healing's finally come of age,  
No more feeling sorry for me days,  
I'm over you.

When I think of us I don't get upset  
I'm together as I think I'll ever get  
Losing you I've come to accept  
I'm over you.

It's never easy when love comes to an end  
Just when you think you're off the hook you fall back in  
But I'll be okay, I'll go my way, we can still be friends  
I'll be alright, long as I never see you again

No more tears in these hazel eyes  
No more drinkin' down at nights  
I'm no good and well I've tried  
More than I can say for you

And yes I've heard that you've moved on  
I'm okay not bein' what you want  
I'm fine with sleepin' all alone  
More than I can say for you

It's never easy when love comes to an end  
Just when you think you're off the hook you fall back in  
But I'll be okay, I'll go my way, we can still be friends  
I'll be alright, long as I never see you again  
Yeah I'll be alright, long as I never see you again
