Sung by: Kelly Clarkson and Alexandre Pires

Oh, oh
Oh...yeah...

(Alexandre)
Ven a mi dulce amor
Ayidame a cambiar este destino salvame!
Por favor que tengo el corazn partido en dos.

Dame mas, quiero mas
de esa bendita forma en que me miras.
Solo tu, solo yo, caricias que me roben la razn.
mame, acircate y amame
Regalame de a poco tu calor, atrivete a mi amor
No tengas miedo y solo amame ahora y siempre
mame.

El mundo se inventa para los dos
No tiene la pasin de explicacin

(Kelly)
When you're here, nothing's wrong
It's natural cause we belong together
This is it, there's no doubt
I know it from the bottom of my heart
I will live just like this right by your side
No matter what they tell me
And it's in your sweet kiss
How I know you are the greatest love of all

Love me now, come closer baby
Love me now, I wanna hear your voice calling my name
'Cause nothing feels the same when you're around me
Love me now, we're here together
Love me now, tomorrow it will be a day too late
I really need this love to change this fate

Oh, oh, oh
Ooh
Oh

Ohhh

(Alexandre and Kelly)

Love me now, come closer baby

Love me now, I wanna hear your voice calling my name

'Cause nothing feels the same

Oh...

Love me now, we're here together

Love me now, tomorrow it will be a day too late (oooh)

I really need this love to change this fate

Yeah...Oh, oh, oh

I'm close to you

Come closer

Come closer, yeah

Ohhh

Amame
