Shaking your head like it's all wrong  
Before you're here you're already gone  
And even with the light all around you  
You're all alone in the dark.  
You're breaking your own heart  
Taking it too far down the lonely road  
You say you just want love  
But when it's close enough you just let it go  
The very thing you've been the most afraid of  
You've been doing it from the start, breaking your own heart.  
Too many tears, too many falls  
It's easier here behind these walls  
But you don't have to walk in the shadows  
Life is so hard.  
You're breaking your own heart  
Taking it too far down the lonely road  
You say you just want love  
But when it's close enough you just let it go  
The very thing you've been the most afraid of  
You've been doing it from the start, breaking your own heart.

You're breaking your own heart.  
It's not too late, I'm still right here.  
If only you'd let go of your fears  
You're breaking your own heart  
Taking your own heart down the lonely road  
You say you just want love  
But when it's close enough you just let it go  
The very thing you've been the most afraid of  
You've been doing it from the start, breaking your own heart.  
You're breaking your own heart
