Breathe in, breathe out,
Restless, waiting for anything,
Tension is thick in the air
Are you gonna lead or follow me?
Full speed, turn up the overdrive,
Makes me feel glad that I'm alive,
It's time we finally made our move,
So come on, come on, come on Now

Lets go,
Lets jump right in,
Scream into the wind,
Feel the fire within,
I cant ignore this burning in my soul,
Come on baby let's go,
We might go fast,
We might go hard,
But I can take it,
I need to know, so come on baby go,

Fever, in my eye,
Starts racing back and forth in my mind,
I feel emotions rush through me,
Starts stirring such passion inside of me,
Are we regressing or taking flight,
Id rather be laughing
Than just stay quiet,
It's time to make a move,
It's time, weve nothing to lose,
So come on, come on, come on now,
Lets go,
Lets jump right in,

Scream into the wind,
Feel the fire within,
I can't ignore this burning in my soul,
Come on baby lets go,
We might go fast,
We might go hard,
But I can take it,
I need to know, so come on baby go,

No one to stand in our way,
And nothings holding us back,
Doesnt matter what they say its just you and me,
I'm so glad it turns out what I didnt know and I was too
scared to show,
Lose control of my soul
Come on now,

Lets go,
Lets jump right in,
Scream into the wind,
Feel the fire within,
I cant ignore this burning in my soul,
Come on baby let's go,
We might go fast,
We might go hard,
But I can take it,
I need to know, so come on baby go,

Breathe in,
Breathe out,
Go,
Breathe in,
Go,
Breathe out,
