What you see's not what you get
With you there's just no measurement
No way to tell what's real from what isn't there
Your eyes they sparkle
That's all changed into lies that drop like acid rain
You washed away the best of me
You don't care

You know you did it
I'm gone
To find someone to live for
In this world
There's no light at the end of the tunnel tonight
Just a bridge that I gotta burn
You were wrong
If you think you can walk right through my door
That is just so you
Coming back when I've finally moved on
I'm already gone

Sometimes shattered
Never open
Nothing matters
When you're broken
That was me whenever I was with you
Always ending
Always over
Back and forth, up and down like a rollercoaster
I am breaking
That habit
Today

You know you did it
I'm gone
To find someone to live for
In this world
There's no light at the end of the tunnel tonight

Just a bridge that I gotta burn
You were wrong
If you think you can walk right through my door
That is just so you

Coming back when I've finally moved on
I'm already gone

There is nothing you can say
Sorry doesn't cut it, babe
Take the hit and walk away
'Cause I'm gone
Doesn't matter what you do
It's what you did that's hurting you
All I needed was the truth
Now I'm gone

What you see's not what you get
What you see's not what you get

You know you did it
I'm gone
To find someone to live for
In this world
There's no light at the end of the tunnel tonight
Just a bridge that I gotta burn
You were wrong
If you think you can walk right through my door
That is just so you
Coming back when I've finally moved on
I'm already gone
I'm already gone
Oh, I'm already gone, gone, gone, gone
Already gone
I'm gone
