### "One Day"

You don't know how You shine  
I guess no one told You  
So let me be the first to show how I love Your eyes when  
You smile  
Can't resist You even when I try  
One day You'll see one day You'll believe me

I don't know why they left  
I will never understand foolish hearts careless hands  
I'm not like the rest of them  
I'll be here forever till our lives end  
One day You'll see one day You'll believe me  
One day You'll know one day I won't have to show You

All I know is that I've found I've been looking for  
Help You once so now took a chance and ask for a little  
more  
You don't know how You light up every room or how You  
shine  
I guess no one ever told You so if You don't mind  
One day You'll see one day You'll believe me  
One day You'll know one day I won't have to show You
