I know that you need it  
I know that you don't need me to repeat it  
But everything I have to give  
I'll give to you  
It's not like we planned it  
You tried to stay, but you could not stand it  
To see you shut down so slow  
As though it was an easy thing to do

Listen when  
All of this around us will fall over  
I'll tell you what we're gonna do, yeah  
You will shelter me, my love  
And I, I will shelter you

I left you heartbroken  
But not until those very words were spoken  
Has anybody ever made such a fool outta you?  
It's so hard to believe it  
Even as our eyes do see it  
The very things that made you live are killing you

Listen when all of this around us is fallin' over  
I tell you what we're gonna do, yeah  
You will shelter me, my love  
And I, I will shelter you, yeah

We will shelter you  
I will shelter you, oh  
We will pray with you  
We will pray with you, shelter you  
We will shelter you  
We'll shelter you

Listen when  
All of this around us is fallin' down  
We're gonna shelter you
