Let's go!

What happened to the man who used to take me
Straight into misery
I want you back and now
I must admit it shames me
How can this be

Tell me what's this desperation
Cause I don't recognize these chains
I think I made a bad mistake

Cause once I ran away
I loved you since the day
The day I broke your heart (heart, ha-ha-heart)
It's more than I can take
I loved you since the day
The day we fell apart (part, pa-pa-part)
Now everything is coming undone
Cause you were the chance I can't afford to waste
I loved you since the day
The day we fell apart

I must admit the grass looks so much greener
On the other side
Since you left I notice now you're so much meaner
And it's something I think I like

Tell me what's this desperation
Cause I don't recognize these chains
I think I made a bad mistake

Cause once I ran away (Cause once I ran away)
I loved you since the day
The day I broke your heart (heart, ha-ha-heart)
It's more than I can take (I love you)
I loved you since the day
The day we fell apart (part, pa-pa-part)
Now everything is coming undone (coming undone)
Cause you were the chance I can't afford to waste
I loved you since the day

The day we fell apart

I made a bad mistake
Used to pay for your sins
Drowning you one more time
And mend my wicked ways

Cause once I ran away
I loved you since the day
The day I broke your heart (heart, ha-ha-heart)
It's more than I can take
I loved you since the day
The day we fell apart (part, pa-pa-part)
Now everything is coming undone
Cause you were the chance I can't afford to waste
I loved you since the day
The day we fell apart
The day we fell apart
