Loaded with dynamite
I don't give a fuck 'cause
Everybody die tonight
Call me negative
Call me what you want
You are nothing
Never wasÂ...never will

My hostility
My sanctuary
My reality
My sanctuaryÂ...underground

Coming with the storm
You wish you were never born
Fucked up reality
I'll take your soul and plant my seed
My hostility
My sanctuary
My reality
My sanctuaryÂ...underground

No excuses, no regrets
Everybody die tonight
Everybody die tonight

No divisions, no turning back
Everybody die tonight
Everybody die tonight

Sanctuary, sanctuary
Everybody die tonight
Everybody die tonight
