I said track it, move it or lose it (ohh)
There's nothin' to it (to it)
Get your mind on; you can carry on
If you like how I sing my song
Go ahead, you can be bad
It aint over till it's over
We gotta go deep we gotta go deep
Rockin' with me rockin' with me
I don't know what you've been waiting for
Hurry up run get moving out on the floor
Rock all night party over here go on and do your thing
Let's go higher show me how you feel
Think I'll show you why you like me
(Let it rock) Over to the left till there's nothing left, think
about your head
(Let it rock) over to the right give it all your might we're
having fun tonight
(Don't stop) Go ahead and breathe tell me what you
seek, tell my country me
(Let it rock) It's an animal streak we're gonna cause a
scene tearing up the heat
