I know I've said these words before  
I guess I have to save them again  
Can't come and see me anymore  
Can't come and see me anymore

I know I've she'd these tears before  
I guess I'll have to she'd them again  
You can't come and see me anymore  
You can't come and see me anymore

You can't come and see me  
You can't come and see me  
You can't come and see me  
You can't come and see me

You can't come and see me  
You can't come and see me  
You can't come and see me  
You can't come and see me

You can't come and see me  
You can't come and see me...
