My little fighter
It only makes it brighter
When you paint your windows green
My little fighter
It only makes you lighter
When what you say is what you mean

My lost sailor
Did I ever tell you
It hurt to see your swollen eyes
My lost sailor
Did he ever tell you
That when he goes to sleep he flies

Oh my lover
When you run for cover
Just walk away and don't look back
Oh my lover
When you know it's over
Just walk away and don't look back
