"Because It's Love"

Every time I look at your face
I get this feeling
Every time I look in your eyes
It starts healing
Every time we walk side by side
Yes I get this feeling
Because it's love, yes it's love
Oh it's love
Chorus:
And we climb a step
Every day it's you and I
We climb a step
Every day and every night
It's every time you look at my face
You give me this feeling

Every time you look in my eyes
My heart starts to tumble
Oh I think of you all the time
It's you I believe in
Because it's love, yes it's love
Oh it's love
Chorus 1x
Every time I look at your face
I get this feeling
Because it's love, yes it's love
And it's love
chorus 2x
