# "Never Gonna Break Me Down"

Visit "[Never Gonna Break Me Down](#)" on MotoLyrics.com

There used to be hope but now I've lost it,  
It's gone for ever  
Being a better person  
used to be something but now I've lost it  
There used to be better times  
Better places where I was happier  
Being a better person used to be something  
I used to be proud of  
You always hurt the ones you love the most  
The ones you're not supposed to hurt at all

You'll never  
No you're never  
Gonna break me down  
If you try  
You'll never  
No you're never  
Gonna break me down

There used to be hope but now I've lost it,  
it's gone for ever  
Being a better person used to be something

I used to be proud of

You always hurt the ones you love the most  
The ones you're not supposed to hurt at all  
You'll never,  
No you're never...  
I don't want to be left in the backyards  
But your love is so strong that I can't help myself,  
stop now

You'll never (you'll never)  
No you're never (you never)  
Gonna break me down  
(will break me down)  
If you try  
You'll never...
