Liberty wanted to come with me  
She'd never been there before  
She came close a few times  
Now she needed some more

Liberty let her man go  
Didn't give her the stars  
Stopped laying beside him  
Stayed out late in the bars

Won't she come with me, Liberty?  
Won't you come with me?

Liberty was drunk when she met me  
I liked the look on her face  
Then she took a punch for me  
Her gloves were made out of lace

And Liberty came with me  
To the places she wanted to go  
Every night that she's with me  
She always wanted more

Won't you come with me, Liberty?  
Won't you come with me?  
Come with me, Liberty  
Come with me, Liberty

Taste of freedom  
Freedom's your name  
You taste of freedom  
Freedom's your name
