Lights die

Fireside

Sit next to me (our open hearts speak freely)

Flames cast

These shadows

Hold on you'll see

Take my hand fly with me

Fly with me

Slow down

It's not time

Patience is key (we shouldn't act so suddenly)

Sunrise

With blurred eyes

But still I can see

The future seems so promising

Promise me

We're wasting precious time

Let's leave those rules behind

Saturn take us home (wherever home may be)
