I feel good vibrations

Oh

oh

strange sensations.

Running up and down my spine when you are near me.

Yes

I know that you could love me seriously.

Don't you know that I like loving just for fun?

Baby

you're the one

You've got me on the run.

Yes

you're my number one.

Oh baby

loving just for fun.

Baby

you're the one

You've got me on the run.

Yes

you're my number one

I get you my number one.

I feel excitations -

Oh

oh

that radiations

Oh

oh

that radiation.

Ev'ry time you take me in your arms I'm helpless

Then you spoil it all by saying "I love you".

Don't you know that I like loving just for fun.

Baby

you're the one
