### "Summit Fever"

A lack of oxygen under their skullcaps  
Thin is the air they breathe  
Summit fever grips all of their climbing souls  
Summit fever grips all of their climbing souls

Hypoxic delusions upon the descent  
Crowns of thunderhead clouds  
Summit fever, cause for cut-off time ignored  
Summit fever, cause for cut-off time ignored

To understand means trembling  
Heart rate has learned  
Blood turns to sludge, capillaries die  
Hemorrhaging behind frozen eyelid walls
