### "I Need A Love"

Visit "[I Need A Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I never thought  
Never thought I'd find someone to ease my pain  
Never knew that love would come my way  
Until you... you came  
What you gave was so much more  
Than I had prayed for  
Then suddenly I had to change.

So now I'm here  
Left to wonder about what might have  
Could have been  
A fairy tale of love  
This is what I'm searching for

I need a love that stands the time  
A love that can last come rain or shine  
A love that's just for me  
This is the way that love  
Should be

Have you ever felt like  
Like you was standing in the midst of everything  
But when you just surrounded by nothing  
That's how I... I feel {ooh}  
When I think of all the trust I put in you  
{ooh baby}  
Thought my feelings meant the world to you

So now I'm here  
Left to wonder about what might have  
Could have been  
A fairy tale of love  
This is what I'm searching for

I need a love that fills the moon  
A love that can make the flowers bloom

I tried  
You don't have to make believe  
Your love is all I need {ooh oooooohh}

I need a love that fills the moon  
A love that can make the flowers bloom {make the  
flowers bloom}  
I need a love that's just for me  
This is the way that love should be

I need a love that stands the time {yeaaaa}  
{a love that can stand the test of time, love that will last  
come rain or shine}  
I need a love that's just for me

Ooh baby promise me

Promise you'll love me  
Love me forever  
I want you to stay  
Let's stay together  
Whatever comes our way  
We'll fight it  
That's the way love should be
