You're the only one I see  
It's like no one's in the VIP but you and me  
I know which bed I'm in tonight, baby  
So don't you leave without my handcuffs  
I made some special plans for us tonight  
Oh your just my type, baby

So back, back, back it up, you're the one I got my eye  
on  
Don't give me your number, its already in my iPhone  
I just want you close, close, close, close, nearer  
Been watching you all night up in the mirror

I'm so feeling me right now  
Think I fell in love, fell in love in the club tonight  
I'm so feeling me right now  
I wanna take her home, take her home tonight cause I  
know I'll love her right  
I'm so feeling me right now  
I know I'm good. I can buy my own, I drive my own right  
now  
That's why i really fell in love in the club tonight  
I'm so feeling me right now

28's, Giovanni, She don't need no Clyde  
Tonight she alright, she so Bonnie  
So buying champagne won't have her running  
She cover's her own tab  
Feeling great, looking like money  
She aint scared to spend it, she be stunting on you  
dummies  
So I can understand why one would fall in love

So back, back, back it up, you're the one I got my eye  
on  
Don't give me your number, its already in my iPhone

I just want you close, close, close, close, nearer  
Been watching you all night up in the mirror

I'm so feeling me right now  
Think I fell in love, fell in love in the club tonight

I'm so feeling me right now  
I wanna take her home, take her home tonight cause I  
know I'll love her right  
I'm so feeling me right now  
I know I'm good. I can buy my own, I drive my own right  
now  
That's why i really fell in love in the club tonight  
I'm so feeling me right now

I don't wanna hear nothing from nobody when the club  
ends  
Cuz there's a pretty girl who's driving me home  
Because we're better you  
She feeling me, been feeling me way too long  
If feeling her ain't right, then i guess I'm way too wrong  
Cause can't nobody match this loving, yeah, yeah,  
yeah

So back, back, back it up, you're the one I got my eye  
on  
Don't give me your number, its already in my iPhone  
I just want you close, close, close, close, nearer  
Been watching you all night up in the mirror

I'm so feeling me right now  
Think I fell in love, fell in love in the club tonight  
I'm so feeling me right now  
I wanna take her home, take her home tonight cause I  
know I'll love her right  
I'm so feeling me right now  
I know I'm good. I can buy my own, I drive my own right  
now  
That's why i really fell in love in the club tonight  
I'm so feeling me right now
