Verse 1

I can feel when you're happy
When you're near me every heart beats
Making me feel like it's magic and we have it when it
happens

Bridge:

I wanna scream your name out to the sky
Let it shine with the stars
Now that you lit the flame don't let it die just let it burn

Chorus

Forever and a day baby that's what I want when I'm with
you
You'll never go away baby no one can do me like you
do
Forever and a day that's how long I'll be loving you
You'll never go away I will search this whole world for
you

Verse 2

How could something come between us?
When it's nothing that can mean as much
And you whisper that you love me
While were dancing I lose gravity.

Bridge

I wanna scream your name out to the sky
Let it shine with the stars
Now that you lit the flame don't let it die just let it burn
Nooooo

Chorus

Forever and a day baby that's what I want when I'm with
you (when I'm with you)
You'll never go away baby
No one can do me like you do (Can do me like you do)
Forever and a day that's how long I'll be loving you
You'll never go away I will search this whole world for
you

I can search a lifetime and I'd find
Someone special that I could call mine
There to have you
Always want you around me forever
Forever and A Day

Forever and A Day

Chorus

Forever and a day baby that's what I want when I'm with
you
You'll never go away baby
No one can do me like you do (No one can make me
feel)
Forever and a day that's how long I'll be loving you
You'll never go away I will search this whole world for
you

I can search a lifetime and I'd find
Someone special that I could call mine
There to have you
Always want you around me forever
Forever and A Day
