I dont even have to follow your car
I can look into yours eyes and know
I know I didnt check your phone
See baby, I been you before
Didnt catch you in the hotelroom
But I already know just what went down
Because the truth always comes back around

just a matter of time
till you reveal your disguise
swear that i read between the lines
see your criminal mind

I dont wanna let go
But I promised myself
I would leave this game behind
we got criminal minds

i dont wanna stay i dont wanna wanna
i dont wanna play i dont wanna wanna
i dont wanna stay i dont wanna wanna
i dont wanna play i dont wanna wanna

i dont even know the chick by name
so whats the point of being mad at her
im the only one thats really to blame
cause i used to throw those curves
didnt catch you in the hotelroom
But I already know just what went down
Because the truth always comes back around

just a matter of time
till you reveal your disguise
swear that i read between the lines
see your criminal mind

I dont wanna let go
But I promised myself
I would leave this game behind
we got criminal minds

i dont wanna stay i dont wanna wanna
i dont wanna play i dont wanna wanna
i dont wanna stay i dont wanna wanna
i dont wanna play i dont wanna wanna

i should do you a favor
cause you need help with your lies
you can learn from a player
i dont change your ????
and next time you try to be cool
you should already know just a matter of time

just a matter of time
till you reveal your disguise
swear that i read between the lines
see your criminal mind

I dont wanna let go
But I promised myself
I would leave this game behind
we got criminal minds

i dont wanna stay i dont wanna wanna
i dont wanna play i dont wanna wanna
i dont wanna stay i dont wanna wanna
i dont wanna play i dont wanna wanna

its like looking in the mirror
its likee its like its like.. looking in the mirror
