Ooooo Ooooo
No man, Nooo cry

[Verse 1:]

Im so sick about it
So wrong but i dont know what to do without it
My love, my time, my all invested in you so much
I thought i never doubt it
Now it hurts so bad i wanna scream and shout it
Tell me what happened to the man
That promised the world and said

[Pre Chorus:]

You said that you would be there
Now it seems like you just dont care
And im not going to take it anymore

[Chorus:]

All of the years that i gave
All of these tears that i waste
I think its time that i get on with my life
Although i might be alone (Although i might be)
Im better on my own
Without you here im doing more than just fine
No man No cry

[Verse 2:]

Feels good starting over
Me myself and I through and through i thought i told ya
My independence day i found me a brand new life
And though my heart is aching
I get a little stronger with each baby step im taking
Looking back on what i left
I know what im doing is right

[Pre Chorus:]

You said that you would be there
Now it seems like you just dont care (You dont care)
And im not going to take it anymore

[Chorus:]

All of the years that i gave

All of these tears that i waste (Tears that i waste)
I think its time that i get on with my life (Its time...gotta
get on with my life)
Although i might be alone (Alone)
Im better on my own (Im better)
Without you here im doing more than just fine (More
than just fine)
No man No cry

[Bridge:]

Looka here see my eyes are dry
No tears when i said goodbye
You know better than to ask me why (dont even try)
Cuz im gone, so gone
Pack your bags boy its time to carry on
Im taking back all thats mine

[Chorus:]

All of the years that i gave (All of the years that i gave
yeah yeah yeah)
All of these tears that i waste
I think its time that i get on with my life (I got to get
through with my life)
Although i might be alone (Hey)
Im better on my own (You know im better baby)
Without you here im doing more than just fine No man
No cryyyyyyyyyyyyyyyyyyyyyyy

All of the years that i gave
All of these tears that i waste
I think its time that i get on with my life (Its time...i get
on with my life)
Although i might be alone (I might be alone)
Im better on my own (You know im better)
Without you here im doing more than just fine
No man No cry (No man No cry)

No cry
No man...Nooo cry
