Ribbons dancing in my hair
Watch them floating in the air
Giving out some sweet hellos
No one's a stranger in my world

Higher and higher
I'll take you there

I believe in fate, I believe in dreams
Make the most of all those little things
'Cause everything you touch
Leaves a trace of love
In the end it comes back to you

I'm letting go
I'm flying free
How 'bout you?

You got a problem, let it be
You'll feel the music just like me
Can't you see the sun shining down
Even on a rainy day?

Higher and higher
So easy to go there

I believe in fate, I believe in dreams
Make the most of all those little things
'Cause everything you touch
Leaves a trace of love
In the end it comes back to you

I believe in fate, I believe in dreams
Make the most of all those little things
'Cause everything you touch
Leaves a trace of love
In the end it comes back to you

I'm letting go
I'm flying free
How 'bout you?

I'm letting go
I'm flying free
How 'bout you?
How 'bout you?

I'm letting go
I'm flying free
How 'bout you?
How 'bout you?

I believe in fate and I believe in dreams
Make the most of all those little things
'Cause everything you touch
Leaves a trace of love
In the end it comes back to you

I believe in fate, I believe in dreams
Make the most of all those little things
'Cause everything you touch
Leaves a trace of love
In the end it comes back to you

I'm letting go
I'm flying free
How 'bout you?

So free, so free, so free
