Here I am  
On the edge  
Of my glass  
Looking down down

And I can't  
Fight the past  
Its so easy  
Looking down down

Bottoms up  
What's one more?  
Now when I look down  
I can see the floor

Through my glass  
No one asks  
They all know that  
I've been down

Yes, everything's fine and thanks for asking  
I'll make it home alright you know you're testing  
The little patience that I've fabricated

You know you wanna give in  
You think I've seen the light  
And if that's what you believe  
Then baby its alright

Just let me go  
Just let me go

I'm a pro  
In self doubt  
I'll just take this with me  
On the way out

Find myself  
On the floor  
Is this all there really is?

Just this once

I'll take help  
Keep it on the low  
Down

Don't say  
One more word  
The air's heavy  
And I can't

Yes, everything's fine and thanks for asking  
I'll make it home alright you know you're testing  
The little patience that I've fabricated

You know you wanna give in  
You think I've seen the light  
And if that's what you believe  
Then baby its alright

Just let me go  
Just let me go

I am going through the motions  
Its what everyone wants to see  
I am looking for emotions  
Or the lack of inside of me  
And even though it's hard to shake this thing when its  
on your back  
When you're next to me  
You make me feel like I could do that

Yes, everything's fine and thanks for asking  
I'll make it home alright you know you're testing  
The little patience that I've fabricated

You know you wanna give in  
You think I've seen the light  
And if that's what you believe  
Then baby its alright

Just let me go  
Just let me go  
Just let me go  
Just let me go
