So ask yourself this question
Is this how love is supposed to be?
And how is that you keep findin'
Your way back in my life?

Said, "I'm leavin', have I made myself clear?"
Everytime I find someone I find myself here
No more screamin', there'll be no more lies
Packed up all my bags to go, even made my flight

So how did you find your way back in my life?
How did you find your way back in my life?
How did you find your way back in my life?
How did you find your way back in my life?

I can't tell it, how we make this thing fly
I really thought we'd work it out after all this time
But this ain't how love's supposed to be, in and out of
harmony
So I packed up all my things, there was nothin' left to
say

So how did you find your way back in my life?
How did you find your way back in my life?
How did you find your way back in my life?
How did you find your way back in my life?

Hey, hey girl
How did you get here girl?
How did you find your way?
C'mon girl, c'mon baby, c'mon girl, hey

How did you find your way back in my life?
How did you find your way back in my life?
How did you find your way back in my life?
How did you find your way back into my life, girl?

I wanna know girl, yes
How did you find your way back into my life, girl, yeah?
I wanna know girl, can you tell me? How did you get
here?
I wanna know, babe

How did you find your way? How did you get here,
babe?

I wanna know girl
How did you find your way back into my life, babe?
How did you find your way back into my life?
