### Verse 1

Every finger was made  
For your delight  
To follow the curve of your face  
Here next to mine  
All of your secrets are safe with me  
Can I taste your perfume  
I could just linger for days and melt with you

### (Chorus)

We cant lose with love on our side  
And could use your affection tonight  
Love was made just for us  
Human Touch

### Verse 2

Watching the wind blow your hair  
Dont you wanna spoon  
In a garden of pillows we can share  
Take off your shoes  
Girl you're my favorite time of the year  
Can I kiss your toes  
Until this fever disappears  
Girl you run the show

### (Chorus)

Oh just stay here with me  
your love is all that I need  
I just want it so much  
Human Touch

Repeat chorus  
(ADLIB OUT)
