### "Forest For The Trees"

I am asleep with my eyes open wide  
I don't pretend, i truly am hypnotised  
Cos i am your friend and always will be  
Can't see the forest for the trees  
All of your sins, all of your sins  
Knock on my front door  
I'm letting them in  
Does your respect show in ways i just don't see?  
Paying regard seems to be an impossibility  
Now i try to speak, been trying for too long  
You're always so sorry you're always wrong  
And all of your sins, all of your sins  
Knock on my front door  
I'm letting them in
