Hold on my breath my resonance  
The sun was really be (...)  
Be sure it won't be the same... Another world will arise...  
All these x-rated emotions  
All the blood on my hands did don't make me change

Look at the tears  
On my cheeks  
The tears on my cheeks  
Are from the child who  
Used to cry in your arms

All innocent tears  
Are fallen  
They won't delay  
My curse this time

All innocent tears  
Are fallen  
They won't delay  
My curse this time

La vita senza te, la vita senza te...  
Will save my world  
Dicami perchÃ©  
Let me close your eyes, let me close your eyes...  
And change all that comes behind... behind...
