"My Superstar"

Visit "[My Superstar](#)" on MotoLyrics.com

I've got caught in the wind
Feel it burning through my skin
I've got caught in the wind
You should see the state I'm in
All the sleepless nights that you bring
All the simple songs that you sing
I want you for all that you are
My guiding light, my superstar
I want you for all that you are
It never should have gone this far
I want you for all that you are
I've got caught in the wind
Feel it burning through my skin
I've got caught in the wind
Can't you see the state I'm in
I can read the signals you give
And I will find out where you live
