### "Windmills"

Look into my eyes, try this  
Focus right behind the iris  
Can you see the thired army  
Battling out a war in hiding  
They're fighting for justice  
They're fighting for peace  
Caught in the minefields  
Inside me  
Inside me  
Inside  
You know I wanna learn to know me  
So I wouldn't have to turn to my army  
They're slaughtering for freedom  
They're torturing for love  
All trapped in the bunkers  
Inside me  
Inside me  
Inside  
There's always a windmill
