Wait it out till the light  
Take a breathe, say good night  
But don't ever go away

Wait around to find the time  
Only you can take what's mine  
But don't ever go away

I'll be waiting... I need to let it go

Fade it out into the light  
All these years we never get it right  
I need to let it go  
I need to let it go  
I need to let it go

No more reasons to defy  
That I believed that you were mine  
I need to let it go  
I need to let it go  
I need to let it go

A chance to change or stay the same  
One night with out the blame  
That don't ever go away

Only you can make it right  
To walk away with out a fight  
But don't ever go away

I'll be waiting... I need to let it go

Fade it out into the light  
All these years we never get it right  
I need to let it go  
I need to let it go  
I need to let it go

No more reasons to defy  
That I believed that you were mine  
I need to let it go

I need to let it go  
I need to let it go

I wish you'd let me go...
