Used to lie awake  
And talk away  
Whatever things were hanging in the air  
Spoke adventures and philosophies  
Now the conversation's ended  
Cause you can't stop flipping around

We got news at eleven  
We got sinners selling Heaven  
We got infomercial dramas  
We got MTV  
We spend hours now online  
Anything to pass the time  
All I know is that we never talk anymore  
No

Used to walk around and talk about  
War, religion, and people on the street  
Critique the books we read  
And the trials of our parents  
And we'd scream through happy hour  
Wondering where we were going to eat

We got news at eleven  
We got sinners selling Heaven  
We got infomercial dramas  
We got MTV  
We spend hours now online  
Anything to pass the time  
All I know is that we never talk anymore  
No

Can't you see I'm looking backwards  
My friend

I'm lonely here and I need somebody to talk to  
Won't you listen  
How you listened  
When this all got started

Used to hug the phone and talk to sleep  
And wake up with it warm against your soul

And I would fall asleep just listening to you breathing  
Now you screen your machine  
And you hug your remote control

We got news at eleven  
Political parties into Heaven  
We got infomercial dramas  
We got MTV  
We spend hours now online  
Anything to pass the time  
All I know is that we never talk anymore  
No

We got news twenty four seven  
We got Letterman, Jay and Conan  
We got wealthy TV psychics  
We got VH1  
We spend hours now online  
Even porn to pass the time  
All I know is that we never talk anymore  
No  
We don't talk anymore  
We don't talk anymore  
We don't talk anymore
