Live good my friends
And you will live right to the end
Live good with one another
That's what the book of Genesis says

One step down the highway
And you can find a lot of things coming your way
One step down the highway
And you can find a lot of things coming your way

So, live good my friends
And you will live right to the end
Don't envy your brothers
That's what the book of Genesis says

One step down the highway
And you can find a lot of things coming your way
One step down the highway
And you can find a lot of things coming your way

So, live good my friends
And you will live right to the end
Live good with one another
That's what the book of Genesis says

Live good with one another
Be like sisters and brothers
Live good with one another
Be like sisters and brothers

Come on, come on, come on, come on, come on, now
Come on, come on and tell me that you love me, baby
