Wait it out till the light
Take a breathe, say good night
But don't ever go away

Wait around to find the time
Only you can take what's mine
But don't ever go away

I'll be waiting... I need to let it go

Fade it out into the light
All these years we never get it right
I need to let it go
I need to let it go
I need to let it go

No more reasons to defy
That I believed that you were mine
I need to let it go
I need to let it go
I need to let it go

A chance to change or stay the same
One night with out the blame
That don't ever go away

Only you can make it right
To walk away with out a fight
But don't ever go away

I'll be waiting... I need to let it go

Fade it out into the light
All these years we never get it right
I need to let it go
I need to let it go
I need to let it go

No more reasons to defy
That I believed that you were mine
I need to let it go
I need to let it go

I need to let it go

I wish you'd let me go...
