Watch the lives pass us by  
I spend most days in my room  
The smell of cheap talk and wine  
On the air your perfume

In the blink of an eye  
In the times we arrive  
They say you were wrong

(CHORUS)

I'll never say it again  
We've been buried by these sounds  
I'll never say it again  
Words keep coming out to loud  
I'll never say it again  
Your the only face I recognize  
And your not around!

I trace the lines in the sky  
We spill these lies to feel good  
Just this moment in time  
Things work out like they should

In the blink of an eye  
In the times we arrive  
They say you were wrong

(CHORUS)

I'll never say it again  
We've been buried by these sounds  
I'll never say it again  
Words keep coming out to loud  
I'll never say it again  
Your the only face I recognize  
And your not around! Yeahhhhhhh

We've been buried by these sounds  
Words keep coming out to loud  
We've been buried by these sounds  
Words keep coming out to loud

I'll never say it again

We've been buried by these sounds  
I'll never say it again  
Words keep coming out to loud  
I'll never say it again  
Your the only face I recognize  
And your not around! Yeahhhhhh

I'll never say it again  
We've been buried by these sounds  
I'll never say it again  
Words keep coming out to loud  
I'll never say it again  
Your the only face I recognize  
And your not around! Yeahhhhhh
