

## Cavo "Southern Smile"

Visit "[Southern Smile](#)" on MotoLyrics.com

With a southern smile she don't seem cold  
Drive right through to a Midwest storm  
There's a broken heart across the field  
Where the sun don't shine and the wounds  
won't heal

With a sober smile I can't sit still  
Gonna leave this life and you know I will  
With all I've lost and all I hold  
There's a need in me to lose control

Till I see you, but you don't see me  
I bleed you, but you won't heal me  
I scream you, but you don't hear me  
I dreamed you, but you don't see me

Gonna cross that line, I won't look back  
Gonna save myself from the things I lack  
With all I've lost and all I'm told  
There's a need in me to lose control
