Chorus

It's not the time, it's not the place I am afraid (Repeat
3x)

They keep telling me, I'm not alone

They're all standing by me, but I am not my own

This thing is growing like a cancer I must kill

I am so confused, I don't know what I feel

I refuse to believe this is a child

It's not a person yet it takes quite a while

And guilt is great on my shoulders tonight

Could someone please tell me what is wrong and what
is right

What is wrong and what is right, what is wrong and
what is right

But I know it's life, I can't deny that it's life

Oh is it life? Can I deny this it's life? I am afraid
