Gather along the lines, Gather along the lines. You'll
be safe inside so gather along the lines
No one has to know as long as you don't smoke those
cigarettes
You can keep your heart of stone and say you forgive
but you don't ever forget

We can't keep this up much longer, Grace is driving
the hardest bargain
The perfect world we have constructed keeps more
people out than lets them come in

So let it shine if you've got any light left
Let it rise and sing as loud as you can get
We've got to live, we've got to laugh, we've got to
love
We've got to learn to breath outside the lines
We got to learn to be outside the lines

Gather along the lines
Gather along the lines
Keep your prejudice and pride
Just gather along the lines

Everyone will think that you are so important to the Lord
But never bend you knee oh that wasted time you
can't seem to afford
We were caught inside the bubble, some sense of
family some sense we belonged
And when we pleased them they were happy but God
forbid that we should ever do wrong

I don't think he's threatened when we ask questions
when we have doubts and disbelief
I don't think he's angry when we are human that's
what he made us to be
