

C-block **"First Love"**

Visit "[First Love](#)" on MotoLyrics.com

When we met
You swept me in your arms
We danced the dance of love
And danced we never part
I looked into your eyes
A stranger new to love
Afraid this all would end
And I'd let go
Ohh I need
My first love
My best love
My true love
Forever
A melody for two
In a spell that broke too soon
You'll always be,
My first love
When it came the time for us
To go our separate ways
Half of me was left behind
With you on that day
I can lie and wish you love
A love with someone new
Everything to you
Ohh I need
My first love
My best love
My true love
Forever
A melody for two
In a spell that broke too soon
You'll always be
My first love
My first love
