

## Kendric "The Little Things"

Visit "[The Little Things](#)" on [MotoLyrics.com](https://MotoLyrics.com)

For all the times we fell in love  
The little things that made us smile

For whatever made you and me  
Believe in wonders for a while

For all the luck we haven't planned  
The little thoughts that gave us wings

And for the melodies in songs  
That only lovers ought to sing

Doo-doo-doo doo  
Doo-doo-doo doo-  
Doo-doo doo-doo  
Doo-doo-doo doo

For every dream that seemed so far  
And for the ones that come so close

For all the little steps we take  
And for the long and winding roads

For those who wipe our tears away  
And for the laughter that won't end

That turns the night into a day  
And sometimes people into friends

The little things we've said and done  
They all remind me of nothing but love  
The little things for everyone

The little things we've said and done  
They all remind me of nothing but love

For all the pain that made us strong  
And for the love that made us weak

For those who helped us travelling on  
A sometimes dark and empty street

Doo-doo-doo doo  
Doo-doo-doo doo-  
Doo-doo doo-doo  
Doo-doo-doo doo

For every word that's left unsaid  
And those that we don't have to say

For all the things we once forgot  
Although they never fade away

For everyone who still believes  
The reason why we're not alone

The ones who join, the ones who leave  
And for the place that we call home

The little things we've said and done  
They all remind me of nothing but love  
The little things for everyone

The little things we've said and done  
They all remind me of nothing but love

And I never get enough

The little things (things)  
They all remind me of nothing but love  
The little things for everyone

The little things we've said and done  
They all remind me of nothing but love

And I never get enough
