From the cradle to the crossroads  
From the crossroads to the grave  
Choices we are given and choices we have made  
I have so many questions I've tried the best I can  
I may never know the reasons but I know that there's a  
plan

Chorus

It's in God's Hands now  
He's got all the answers  
But He ain't saying how  
It's in Gods' hands now

(Repeat Chorus)

When my endless summer ended in a sad September  
song  
I looked up to heaven for the strength to carry on  
To everything's a season and in time it too shall pass  
Pain is but a moment but His Love always lasts

Chorus

I'm standing at the crossroads, I know what I've got to  
do  
Put the past behind me and give my heart to You.

It's in God's Hands now  
He's got all the answers  
But He ain't saying how  
It's in Gods' hands now  
If I can find the strength  
to let it go. I know  
I will be found  
It's in God's Hands now.
