So there
You got me in your clutch again
So there, so there

I felt your touch
And that voodoo that you do so well
has got me spinning round

So let me in your world
Let me in your world for a while
Let me in your world
So I can sing to you

Oh, no, you got me going crazy, for you baby
Say oh no, you make me go insane for you baby

So there
You got me in your clutch again
This, this living strange
We count our feelings in yesterdays
But is that how you keep your clutch, baby?
Is that how you keep it darling?

So let me in your world
Let me in your world for awhile
Let me in your world
So I can sing to you

Oh no, you got me going crazy for you baby
Oh no, you made me go insane for you baby

Oh, you got me in your clutch again.

Oh no, you got me going crazy for you baby
Oh no, you make me go insane for you baby

Oh-oh-oh-woah-oh-oh

You got me
you got me in your clutch
