"Face The Gun/Good Luck"

Visit "[Face The Gun/Good Luck](#)" on MotoLyrics.com

The lightnin' haze, zig zags in roads
Wake up with the black hearts, fight the 'Animals'
This is the testimony of the young at war
Dwellin' on the conflict thinkin'
That maybe tomorrow never comes

As they face the gun
Face the gun

Their black gold eyes understated the power of politic
If we could rewind all the rhetoric that they've claimed
and sold
While the fools rule in praise, the globe has warmer
days
I lift my fist to find the solace and hope that love will
save us

As we face the gun
Face the gun
As we face the gun
Face the gun

Ridge's power is set under guises of false security
Understand, we're takin' on Mr. Orwell's master plan
Take my hand, hold on because the turbulence is
ahead

As we face the gun
As we face the gun
Face the gun
Face the gun

Put away the fear
Face the gun
Put away the fear
Yeah, yeah, yeah, yeah oh
As we face the gun

Did you know we're the one?

(I want to know)
Isn't it electric in here?

(I want to know)
I wanna know what it's about

(I want to know)
Isn't it amazin' in here?
(I want to know)
I wanna know what you're about

(I want to know)
Isn't it amazin' in here?
(I want to know)
Isn't it amazin'?
(I want to know)

Shall I get to the? Shall I get to the?
Shall I get to the top of the world
Top of the world?

Shall I rise to the top of the world?
Shall I climb to the top of the world?
Top of the world, top of the world
Shall I get to the top of the world?
Shall I get to the top of the world?
Top of the world

Good luck
Stop, stop
