(Verse)

When the night falls she hear the call of the street life
See the flicker of the street lights wanna know what it
be like
Wanna be right there.
Black lipstick, tattoos of a peace sign
Plus the mark of the beast sign, all night please be kind
Baby girl has no fear.
Tight clothing, blowing cigarette smoke in slow motion,
Heart filled of love potion, but it's frozen.
Thinks the world's so insincere
Now she's dancing with strangers s,he don't know the
name of
The city has claimed her but she doesn't care.

(Hook)

What you want, want?
You want, want?
Come and get it get it.

(Verse)

When the night falls, she hear the call of the bright
lights,
See the shine of the spotlight, wanna know what that
like,
Wanna be right there.
White liar with her name in the headlines
Naked pictures on her website
Just to run it into headlights
Baby girl don't you be scared
Red carpets on the arm of an artist,
Be a starlet on the star-list
Paparazzi target, things near don't move just so unfair.
She know that it's dangerous, she wants to be famous
But shes not ashamed cause it ain't nothing there.

(Hook)

What you want, want?
You want, want?
Come and get it get it.

(Verse)

When the day come
And they're looking far away from
Where they came from.
See the night has betrayed them,
Told them they will stay young,
Told them they will stay young.
Now they see a sun,
The night's on the run
Right before the rise.
Black mascara's running from their eyes.
But big girls don't cry.
It'll be alright, it'll be tonight
They'll cut back on the light.

(Hook)

What you want, want?
You want, want?
Come and get it get it.
