You call, call, call on me
I suffocate in all of it
And call, call on me
Its hard to breathe
I suffocate and choke on it

Its bittersweet for me to know
The fever's taking over
The status of my fear soars
I'm waging a war
A war in me
The war in me is wailing
I...
I still believe

To tryin' all this
Is short of bliss
To kill the cycle that i've fed
The labyrinth in me
Is every sin everyday
And all have lain

Its bittersweet for me to know
The fever, taking over
The status of my fear soars
I'm waging a war
A war in me
The war in me is blairing
I...
I believe
I believe
Colors bleed in a war
War for me
A war for me
A war for me is blaring
And i, i, i, i, i, i can see
Heaven sees for me

Whoa, whoa, whoaaaaaaaaaaaaaaaaa...

Here it's bittersweet for me to know
Fever, taking over

The status of my fear soars
I'm waging a war
War in me
A war in me
A war in me is blaring
I...
I believe
I believe

There's a war
War for me
A war for me
A war for me is blaring
And i, i, i, i, i, i can see
Heaven steers
Ohhhhhh! it's bittersweet for me to know
Fever, taking over
The status of my fear soars
In a war
A war in me
A war in me
A war in me
Blaring
I...
I believe
I believe
There's a war
A war for me
A war for me
A war for me, blaring
I...
I believe
I believe
Yeah
There's a war
A war in me
War in me
Blaring
War in me
A war in me
Blaring
A war in me!
