Oh, heart  
I hear you beating  
But her heart just  
Ain't beating like you

Oh, heart  
You gotta watch out now  
Or else she's gonna  
Break you in two

Oh, heart, you better believe me  
Save yourself for somebody new

Don't make such a fuss  
There's no hope for us  
She don't care the  
Way that you do

Oh, heart  
Please stop your pounding  
Don't settle yourself for  
Something that's wrong

Oh, heart  
Now don't let her hear you  
Come on now  
You gotta be strong

Oh, heart, you better believe me  
Save yourself for somebody new

Don't make such a fuss  
There's no hope for us  
She don't care the  
Way that you do

Let me tell you now, heart  
(Now be careful, heart)  
I'm going crazy  
(Now be careful, heart)  
Can you hear a word that I say  
(Now be careful, heart)

Oh, heart  
(Now be careful, heart)  
She doesn't want you  
(Now be careful, heart)  
There's no use  
In acting this way  
(Now be careful, heart)

Yes, I'm telling you, heart  
(Won't you be careful, heart)  
You better believe me  
(Won't you be careful, heart)  
Save yourself for somebody new  
(Won't you be careful, heart)

Don't make such a fuss  
There's no hope for us  
She don't care the  
Way that you do  
(Now be careful, heart)

Yes, I'm telling you, heart  
(Won't you be careful, heart)  
You better watch out  
(Now be careful, heart)

I'm telling you, heart, heart, heart  
(Won't you be careful, heart)  
Now watch out, you heart  
(Won't you be careful, heart)...
