I haven't seen you in forever
Oh, you haven't changed a bit
You didn't think that I'd remember
How could I forget?

We sang Bobby McGhee
On the hood of my car
Made a wish on every star
In that clear, September sky

One bottle of wine and two Dixie cups
3 a.m., I fell in love for the first time in my life
Oh, that's something that just don't happen twice

To this day, I still taste that first kiss
How I prayed it wouldn't end
In a way, seeing you like this
I guess it never really did

We sang Bobby McGhee
On the hood of my car
Made a wish on every star
In that clear, September sky

One bottle of wine and two Dixie cups
3 a.m., I fell in love for the first time in my life
Oh, that's something that just don't happen twice

One bottle of wine and two Dixie cups
3 a.m., I fell in love for the first time in my life
Oh, that's something, baby, that's something
Oh, that's something that just don't happen twice

Oh, yeah

We sang Bobby McGhee
On the hood of my car
Made a wish on every star
One bottle of wine and two Dixie cups
Yeah, we fell in love
