Stressed out, running late, racing down the interstate
Spilled hot coffee, down the front of my jeans
It's work, work, pay the rent, money and my time's
spent
Not a minute left for me to be me

Been going like nothing can wait
I gotta get my priorities straight

I need to live a little, have some fun
Take some time, waste it on number one
Find a girl that brings my whole world to a stop
Live a little, love a lot

Friday night, here we go, do a little do-si-do
Kick back, have a laugh, catch my breath
Tell the band slow it down, there she is, think I found
Maybe Ms. Wonderful, I haven't met yet

It just hit me like a wrecking ball
She's giving me a wake up call

I need to live a little, have some fun
Take some time, waste it on number one
Find a girl that brings my whole world to a stop
Live a little, love a lot

Step back, smell the rose
Feel the sand between your toes
Unplug, unwind
Step out in the sunshine

I need to live a little, have some fun
Take some time, waste it on number one
Find a girl that brings my whole world to a stop
Live a little

I need to live a little, have some fun
Take some time, waste it on number one
Take the girl, get a map and pick any old dot
Live a little, we need to live a little, love a lot
